MYSTERIOUS JOHN STEELE,

THO THE POLICE SAY IS A MYTH, AS THEY CANNOT FIND HIM.

Mrs. Tran and Her Hrother-in-Law Bessle Held on Charges of Forging the Checks that Led to an Unsuspecting Lawyer's Arrest. Mrs. Josephine Trau, who is accused of

uttering two forged checks, one for \$1,800 and one for \$1,150, upon the Commercial Bank of Brooklyn, and her brother-in-law, Adolph Bessie, a Holland Jew, of 786 Monroe street, Brooklyn, who is accused of forgery in the third degree, in connection with the \$1,150 check, were before Justice Walsh yesterday for examination. Mrs. Trau was dressed in black. with a plush bonnet adorned with colors. Her daughter, who is about 18 years old, was in the court room, wearing a fashionable suit of gray and a flaring fur hat. The forged checks were dated Dec. 22, and the blanks used were from the books of stamped checks sold only by the bank to its depositors. The checks purported to be signed by Gill, Baird & Co., and were made payable to John Steele, who endorsed them to Mrs. Trau.

John J. Vail, the cashier of the Commercial Bank, identified Mrs. Josephine Trau as the person who, on Dec. 22, obtained \$1,800 upon one of the forged checks, and he also recognized the check for \$1,150, which Mrs. Trau first presented to the bank, and which Henry W.

one of the forged checks, and he also recognized the check for \$1,150, which Mrs. Trau first presented to the bank, and which Henry W. Sackett, a lawyer, afterward presented for certification, without knowing that it was forged. Mr. Sackett was arrested, the forgery then being recognized. Mrs. Trau upon the first occasion was identified by William Davis, When she came the second time she was told that the check was not good, because there was not enough money in the bank to the credit of Gill. Baird & Co. to meet it. She promised to come the next day but did not. In the mean time Mr. Vall promised to see Gill, Baird & Co. If there had been money enough to meet the checks, Mr. Vall said, he would have paid them because the signatures so closely resembled that of the firm.

Alderman A. D. Baird testified that he was a member of the firm of Gill, Baird & Co., and that both of the checks were forgeries. He knew nothing of any person named John Steele, and he was positive that no checks had been drawn to Steele's order. The imitation of the firm's signature was exceedingly close. The counterfeit was of the handwriting of his partner. He could not tell whether the checks were forget he and his partner took blank checks out of the book for their use, as business men naturally do.

Cornelius A. Bunkle testified that he knew Adolph Bessie, and that on Dec. 24 Bessie brought to him a check for \$1,150, to have it collected. "I was coming out of the Jeffers to Market Court." said Mr. Runkle. "when I met Bessie, who told me that he had some business for me. He said that Mrs. Trau had sold her farm to John Steele, and was to receive half in cash and half in mortigages: that he (Steele) had given her a check of \$1,150, which had been paid, and also a check for \$1,150. This sheek she presented the day before, but as the bank officers said that they could not attend to the check that day, and asked her to call the next day. Mrs. Trau had offered him five per cent, to collect the check, and my understanding was that I was to col

SIGNED BY MAYOR HOWELL, Brooklyn's New License Ordinance—The Di-tinction Against Foreigners.

The amendment of the Brooklyn license ordinance made by the Brooklyn Aldermen on Monday by a vote of 13 Democrats to 12 Repub-licans, and which provides that licenses shall be granted to no persons other than citizens of the United States, was much discussed yesterday. If this ordinance is enforced the Mayor must refuse licenses to Chinamen for laundries or other kinds of business, and to all foreigners who have not lived here at least five years, and

who have not lived here at loast five years, and have not obtained citizenship capers. Adderman Donovan, who effered this clause of the amendment, is from the Twelfth Ward. He was complicated some years ago in a dead lock in the Common Council by his persistency in voting for himself for President. He said yearerday that he offered the resolution, which was adopted into the ordinance, because he did not believe in letting 466,000,000 Chinamen overran 40,000,000 while people in this country. Mayor Howell yesterday promptly approved the new license ordinance, in spite of the restrictive provision. He said that he would not pay the shightest attention to the latter, because he regarded it as unconstitutional. I will grant licenses now, he said, "to white or black, natives or foreigners—any one who will pay for them. If the restrictive provision were carried out, it would be an outrage upon yeary foreign-born man who comes here, no matter from what country. The effect of it would be to shut foreigners out entirely from sertain branches of industry. The Aldermen matter from what country. The effect of it would be to shut foreigners out entirely from sertain branches of industry. The Aldermen passed it, expecting that it would kill the whole measure, as they thought that I would withhold my approval; but they are sadly mistaken. Being unconstitutional, the provision will not affect the reat of the ordinance."

The Mayor added that he accepted the ordinance because it was the best he could get, but it was only an approach to what might have been done. The provisions of the ordinance were published in The Sun of yesterday.

Meanwhile, I beg to say that neither Mr. Wallack nor Mr. Moss has any right to " Forget-me Not," and further I will enjoin every manager and actor in the country who attempts to play my piece. We are authorized to receive subscriptions for a limited amount (not exceeding \$2,000,000) of the capital stock of THE IRON STEAMBOAT COMPANY,

in shares of one hundred dollars each.

This company is building, and will have in readiness for the coming summer season, a large fleet of iron steamboats, especially adapted for the requirements of passengers of great speed, constructed in the most substantial manner, non-combustible, and with numerous water-tight compartments, which will render them incapable of sinking. Contrasted with the ordinary wooden steam-boats, they cannot fail to command, at highly remunera-tive rates, the patronage of the great majority of the

The company has entered into contracts extending over a term of years, under which it has acquired the exclu-sive right to convey passengers from New York and its vicinity to the Iron Pier at Coney Island, and a similar vicinity to the Iron Pier at Coney Island, and a similar exclusive right to convey passengers to Coney Island in connection with one of the leading railroads to that pisce. In view of the vast number of people who visit this famous summer resort, it is evident that a line of steamboats possessing these exclusive privieges, constructed in such manner as to command the highest degree of public confidence, and furnished in response to an urgent public demand, must at once prove very profitable.

The contracts already entered into will insure to this company from the outset a business limited only by its capacity, and arrangements are in course of completiwith the Eris and Pennsylvania Railroad Companies, under which it will acquire, in addition, a large and prof-liable excursion business. The company will extend its operations as rapidly as exclusive and profitable conne

tions can be consummated.

During the winter months it is the intention of the company to utilize its boats in Southern waters, so far as hey can be profitably employed. The company is organized under the laws of New Jer-sey, and subscribers to the stock will incur no liability beyond the obligation to pay the amount of their sub-

We recommend this investment as one promising large returns and well worthy the attention and confidence of the most careful investors.

Each subscriber will receive for every \$1,000 of stock allotted and paid for First Mortgage Bonds of the Compa ny (hearing interest at 6 per cent.) to the amount of \$250 The terms of the subscription are as follows:

THE SUN FOR 1881.

Everybody reads THE SUN. In the edit tions of this newspaper throughout the year te come everybody will find: I. All the world's news, so presented that the reader will get the greatest amount of informa-

tion with the least unprofitable expenditure of time and eyesight. The Sun long ago dis covered the golden mean between redundant ulness and unsatisfactory brevity. II. Much of that sort of news which depends ices upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than

any romance that was over devised.

III. Good writing in every column, and fresh ness, originality, accuracy, and decorum in the treatment of every subject. IV. Honest comment. THE SUN'S habit is to epeak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is

praiseworthy or to rebuke what is blamable is Democrat or Republican. VI. Absolute independence of partisan or genizatione, but unwaveging loyalty to true democratic principles. The Sun believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty it to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and
